Environmental Statement

"A sustainable company can only be achieved by dedicated Team Members"

In implementing our environmental policy we will:

We take environmental impact into account in the planning, design and implementation of our projects and contracts to help prevent pollution, and ensuring that activities with high environmental risks are controlled effectively;

Ensure compliance with all relevant environmental legislation and, where practical with codes of practice and other requirements, such as those specified by our customers.

Incorporate environmental and sustainability considerations into our standards and practices with regards to the use materials, energy consumption, waste disposal and recycling;

Provide appropriate environmental training for our own staff working to promote environmental awareness amongst our suppliers, contractors and partners.

We recognise that the operations at our own premises and facilities also have environmental consequences, and this policy extends to cover the premises we occupy, and the materials we use.

We will pursue these commitments by providing adequate resources, training and support from appropriate environmental professions.

To ensure we are able to promote sustainable business practices wherever possible we operate with a passion to:

-
- Embrace an environmental strategy that encompasses each and every team member.
- Focus upon key environmental issues, such as energy efficiency, waste reduction, water efficiency and to minimise pollution.
- Train and provide tools for team members
- Measure, benchmark, set targets and continually improve our performance.
- Share best practices and comply with local and relevant international legislation.
- Liaise with our suppliers and business partners to improve their environmental performance.
- Communicate our environmental achievements to our clients.
- Support local environmental initiatives within local community.
